

The Tracking System consists of a series of unique pieces of information that accompany the product from its entry into the warehouse as raw material through to final shipping preparations of the finished product. These are two different types of label, one standard and one in ODETTE format (EDI standard). The choice of label depends on each Customer's specific needs.

 Galbiati srl nastri coils		www.galbiatisrl.com		12	Nr. Etichetta 20110130803
2	Cod. Articolo 3DK425001300145000000	3	Conferma d'Ordine n° 2514 del 06/04/2011	5	Partita 1251401

8			Tipologia di Materiale Nastro DK		
9			Qualità S420MC		
10	Colata 2011736601	Dimensioni [mm] 130 11 x 2.50			
13	N° Rotoli 2	14	Id. Rotoli 1A	15	Peso [Kg] 1066
Annotazioni					
A0711					

Each label shows:

IN THE FIRST STEP

1. Date.
2. Galbiati's item code.
3. Number and date of the order confirmation (which is the same as the production order).
4. Customer's item code (managed through a specific software package).

IN SUBSEQUENT STEPS

5. Lot number (consisting of the current year, order confirmation number and progressive order-confirmation line number).
6. Customer's company name.
7. Destination of the goods.
8. Type of material.
9. Quality Code.
10. Number that identifies the casting of the original material.
11. Dimensions.

AND FINALLY

12. Label number, which identifies the card (consisting of: year, production load document number and progressive number of the document itself).
13. Number of strip or sheet.
14. Roll ID, i.e., an alphanumeric code that, together with the casting date, provides traceability along the entire production cycle.
15. Weight (in kg).
